JAKARTA SURFACE SHOW

Jakarta Surface Show

A Premier Fair in
Indonesia by Expodutch

The **Jakarta Surface Show** is a highly anticipated event in Indonesia, dedicated to showcasing the latest innovations and trends in surface materials, design, and technology. This fair serves as a crucial platform for professionals in architecture, interior design, construction, and related industries to explore cutting-edge products and solutions.

Held in Jakarta, a vibrant hub of commerce and culture, the event brings together leading manufacturers, designers, and industry experts from around the globe. *Attendees can expect to discover a wide array of surfaces, including marbles, Ceramics, Mosaics, tiles, stones, wood, and advanced composite materials, all under one roof.*

The **Jakarta Surface Show** also features insightful seminars, workshops, and networking opportunities, allowing participants to gain valuable knowledge and forge meaningful connections within the industry. Whether you're looking to source new materials, stay updated on industry trends, or expand your professional network, the **Jakarta Surface Show** is the right place to be.

About 2024

The third edition of the **Jakarta Surface Show**, which brought together companies worldwide to showcase the latest innovations and trends in the natural stone and surface coating industry, commenced with a ceremony held at the JIExpo Convention Centre and Theatre. Expo Dutch, in collaboration with TG Expo, organized the event. The fair allows exhibitors and visitors to discover the latest developments and advanced technologies.

The **Jakarta Surface Show** brings together companies at the forefront of surface technology innovations for natural stone and flooring applications. These developments are essential for Indonesia's growing construction and building sector. The event is supported by several major organisations, including the *Ministry of Public Works and Housing - Construction Services Development Board (LPJK)*, the *Indonesian Chamber of Commerce and Industry (KADIN)*, the *Italian Trade and Investment Agency (ITA)*, the *Indonesian Institute of Architects (IAI)*, the *Indonesian Society of Landscape Architects (IALI)*, and the *Indonesian Society of Interior Designers (HDII)*. This year's event theme was "Shaping the Future of Surfaces with Innovation", and it attracted over **4,700+ visitors from 20 countries**. Leading Turkish companies in the industry also presented their latest technologies at their stands over the three-day event.

In a statement about the fair, **TG Expo General Manager Cem Şenel** said, "Indonesia's growing construction and building sector, which holds great potential, makes the presence of the **Jakarta Surface Show** even more valuable." The fair provided a valuable opportunity for attendees to observe the latest technologies in the sector first-hand. It also offered a platform for architectural buyers from across Asia and surrounding regions to meet with our exhibitors and make purchases. During the fair, the participating companies presented their innovative products and solutions, which were tailored to meet the needs of the natural stone and surface industry. Visitors were thus able to examine the latest materials and technologies, which perform at the highest levels in terms of durability, aesthetics, and functionality. In addition, the fair exhibited sustainable surface solutions, which were in line with the commitment to environmental responsibility. Through conferences and sessions conducted by industry representatives and leading figures in the field, exhibitors and visitors were able to gain in-depth information and awareness of the latest trends.

The event welcomed several architectural buyers from across Asia and beyond.

Exhibiting Product Groups

Tile

- Ceramic
- Porcelain
- Decorative and Custom
- Mosaic
- Metallic
- Glass
- Quarry

Allied Products & Equipment

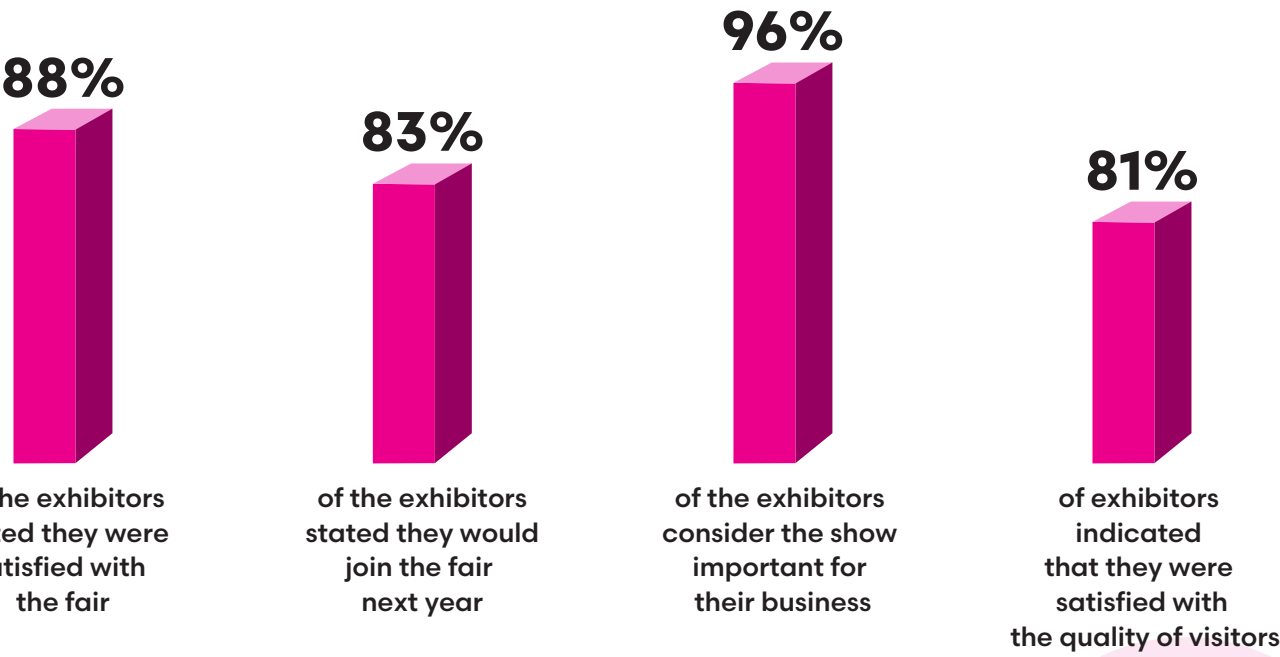

- Installation Materials and Tools
- Coatings
- Finishes
- Sealers
- Cutting and Carving
- Equipment
- Fabricating Equipment
- Flooring Equipment
- Restoration and Cleaning Equipment

Stone

- Granite
- Marble
- Travertine
- Slate
- Limestone
- Sandstone
- Quartzite
- Soapstone
- Terrazzo
- Agglomerates
- Other Natural Stone

Potensi Properti di Indonesia Masih Besar, Jakarta Surface Show Gelar Pameran Marmer

KONTARI.CO.ID - Proyek konstruksi di Indonesia diprediksi akan mencapai nilai US\$ 22 miliar pada 2024 ini. Jakarta Surface Show 2024 turut memamerkan hasil dengan mengadakan pameran berbagai produk marmer pada 6-8 Juni 2024 mendatang.

Salah satu proyek konstruksi di Indonesia diprediksi akan tumbuh sebesar 4,7% dari tahun sebelumnya. Sebagai informasi, sektor ini juga menjadi indikator pembangunan seperti jalan, jembatan, bendungan, pelabuhan, pembangkit listrik, dan lainnya. Sedangkan sektor bangunan mencakup rumah, perumahan, hotel, dan perkantoran.

Salah satu pameran resmi Jakarta Surface Show, perhiasan diproyeksikan menjadi sektor utama dengan pangsa lebih dari 30%. Perhiasan ini juga menggunakan marmer sebagai material dalam bangunan dan interior yang cukup dinamis karena memiliki keunikan dari setiap motifnya serta meningkatkan nilai dari bangunan dan properti.

Salah satu pameran resmi Jakarta Surface Show mengatakan bahwa salah satu produk yang akan memamerkan pameran ini berasal dari Turki. Turki sendiri dikenal sebagai produsen marmer terbesar di dunia.

"Marmer dari Turki telah dikenal oleh arsitek dan desainer global dan banyak digunakan dalam karya-karya mereka. Di Jakarta Surface Show, kami menghadirkan pameran khusus Turki sehingga bisa langsung merasakan pengalaman penggunaan marmer dari Turki di gedung ini," kata Gusek.

Gusek menambahkan bahwa selain dari Turki, pameran akan menghadirkan juga pameran dari Italia, yang juga dikenal sebagai negara produsen marmer, Portugal, Brasil, India, Belgia, China, Vietnam dan lainnya Indonesia.

"Dengan begitu para peserta dapat bertemu dengan para arsitek, arsitek landscape, desainer interior, distributor di Indonesia dan kawasan Asia Tenggara untuk dapat bertukar ide dan saling menginspirasi untuk inovasi bangunan yang lebih baik," kata Gusek.
